

Landscape Design CAD Training Classes

Information & Registration Form

5 Technical CEUs Approved by OLCB!

Realtime Landscaping Architect™

Designed for landscape professionals, sell more jobs with stunning landscape plans and presentations. Create plans with a hand-drawn look in a fraction of the time. Produce 3D movies and walkthroughs to communicate your landscaping ideas. No CAD experience required.

Why! *As an established landscape designer I was disenchanted with many CAD programs because of their complexity and user unfriendliness. Fortunately, Gail Dresner introduced me to Realtime Landscape Architect. Gail understands all aspects of the program because she actually uses it to efficiently generate plans for her own clients. Gail's teaching approach is clear and concise, patient and professional. Indeed, I was able to successfully utilize important features of the program after only my first training session with Gail! Thanks to Gail's instruction, I consistently use RLA to create terrific landscape designs that delight my clients.*

David Leftitz, Landscape Designer

Why! *I wanted to take a moment to thank you for your time and efforts in helping me to learn how to use the Realtime Landscape Architect CAD system. Since I have never worked with any CAD programs before, I appreciated your patience and willingness to go over the most banal and repeated questions until I could perform the tasks that were needed in each step. I believe that RLA is a quality program, and your knowledge of the program, as well as your patience and thoroughness in teaching, creates a great tool.*

Phil Thornburg, Landscape Designer/Contractor, Winterbloom,

Why! Whether you are new to CAD or already using it, this class gives you the capability to produce beautiful CAD landscape designs on your own. **CAD is the future of landscape design—don't be left behind!**

Benefits of producing landscape designs with CAD:

- Provide your clients with an extraordinarily rich design experience created personally for them with the latest technology.
- Quickly produce simple to complex design plans.
- **Charge more for your designs!**
- Easily accommodate client changes with minimal effort.
- Create instant take-off plans for bidding.
- Provide the unique 3D walk-through to your clients.
- Show night lighting.
- Work on multiple designs at the

same time without rearranging your workspace.

- Take your designs to a whole new level with colorful detail.
- Instantly create beautiful perspectives.
- Work anywhere a laptop can go!
- Really show what elevations & slopes look like.
- Easily send plans to clients by email or post on your website.
- **Customize your design presentations so clients say WOW—let's get started on that install!**
- **And MUCH MORE!**

BONUS!

Students who have already taken one of these classes from me may always audit the class(es) you took as a refresher!

Here is a student comment from my last CAD class - *"I absolutely loved your class and meeting you. I'm so excited about the program and finding you as a resource. Thanks for taking the time to help others be successful in this business!"*

Pre-requisites!

Participation in these courses requires you to bring a PC laptop (sorry, no MACs) with RLA loaded onto it to class. These classes will be taught using RLA version 2. To purchase RLA, please visit my website www.circadian.us/_CAD.html. This feature-rich CAD program, written specifically for landscape designers, is only \$249 as opposed to similar-featured programs starting at \$1500 & up.

FREE BONUS!

Receive a **FREE RLA version 3 upgrade** due out end of this year when you register for either of these courses. This will be a major program enhancement release!

Instructor & Location

Taught by Gail Dresner, Landscape Designer/Landscape Contractor, Circadian Consulting & Design. Using RLA has taken my business to new and wonderful levels without me losing my design edge or creativity by not hand-drawing. These classes will be taught in my home office on Hayden Island (conveniently located on Columbia River between Portland & Vancouver) which enables me to keep the cost of the classes down while still providing you with high-quality instruction.

Call—503-632-1191—or email—circadian@bctonline.com—if you have any questions.

I am also available to teach one-on-one or groups.

Course Registration—please clip & mail with payment to Circadian Consulting & Design, 1501 N Hayden Island Dr, 99C, Portland, OR 97217. Please use a separate form for each registrant.
